

## Color the Lost Mural!

Over the last 110 years, the Lost Mural's surface has become coated in grime. Because of this, its colors appear darker than they really are. No one alive has seen the mural's original colors, but we know they were BRIGHT and VIBRANT! Show us how YOU think the mural will look once it's cleaned - or show us the colors you would have chosen if you had been hired to paint the mural yourself! To see photos of the Lost Mural, visit [LostMural.org](http://LostMural.org)
